**RESPONSE TO RESTRICTION REQUIREMENT**

COMMISSIONER FOR PATENTS  
ALEXANDRIA, VIRGINIA 22313

SIR:

In response to the Restriction Requirement dated June 30, 2005, Applicant provisionally elects with traverse Group 1, Claims 1-14, directed to a method of axially aligning at least one pair of opposing optical fibers and an optical fiber axial alignment device. Applicants make this election based on the understanding that Applicants are not prejudiced against filing one or more divisional applications that cover the non-elected claims.

Applicants respectfully traverse the Restriction Requirement on the grounds that the outstanding Restriction Requirement has not established that an undue burden would be required if the Restriction Requirement was not issued and if all the claims were examined together. More particularly, MPEP §803 states:

If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to independent or distinct inventions.

Application No. 10/660,691  
Reply to Office Action of June 30, 2005

In the present application no undue burden has been established if each of the claims were examined together. In contrast, the present restriction requirement subjects Applicants to the added financial burden of prosecuting Claims 1-14 and Claims 15-24 in separate proceedings.

Accordingly, it is respectfully requested that the requirement to elect a single group be withdrawn, and that a full examination on the merits of Claims 1-24 be conducted.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
